

Revealing Soul through Esoteric Astrology

8 Monday classes beginning Sept. 2010

Revealing Soul through Esoteric Astrology is a dynamic course that brings together the foundation of traditional astrology and the richness of esoteric astrology. Esoteric astrology begins with the premise that the horoscope, or birth chart, is the chart of the soul and its' journey. It can tell us how the soul is seeking to make the most of this lifetime. This brings a new and enriching perspective and invites an understanding of how we view our self, tendencies, gifts and challenges.

Revealing Soul through Astrology offers you the best of all astrology classes: a full foundation in traditional astrology - signs, planets , houses and aspects - plus the esoteric overlay.

Thanks for the class! I learned a lot about why the lessons in my life have been the way they've been. I also learned to appreciate others for all their astrological signs and planets--we are all One. Sarah Flanders
